

Financial Institutions are fundamentally changing the way consumers are served, and Hyosung is the ideal partner to deliver the tools and expertise for driving this change. Hyosung Branch Transformation solutions have been designed to facilitate the seamless migration of transactions from the teller line to self-service. Complementing the extensive range of offers Hyosung delivers inside the branch, the **MX7800i** extends the reach of transformative solutions to the drive-thru lanes and to other remote exterior locations. The **MX7800i** is a multi-function, free-standing island terminal, which is much more than a simple ATM. Features, functionalities, and state-of-the-art software enable consumers to perform autonomously traditional ATM functions and many teller transactions typically delivered in the branch drive-thru. And, more complex activities are completed at this terminal with the use of powerful, on-demand remote video assistance. Video solutions from Hyosung coupled with innovative integrated software, provide the latest in branch transaction automation through the self-service channel.

EXPERIENCE THE POWER OF CHANGE.

INNOVATION

- Flexible support for delivering transactions through self-service or with the support of video agents
- A footprint that enables placement in the area/space currently inhabited by a traditional ATM or pneumatic system
- A user interface specifically adapted to accommodate a wide range of drive-thru teller transactions
- A 21" screen that enables intuitive self-service interaction and the highest quality video banking experience in the industry

SERVICE

- Innovative design and the use of Hyosung manufactured core technologies allows for fast, easy replenishment and reduced downtime

CAPACITY

- High capacity cash dispense capability and the ability to support large mixed media deposits

FLEXIBILITY

- Provides for a variety of ways to authenticate the customer and authorize transactions
- Deliver transactions via both self-service or video assistance
- The small footprint enables a wide variety of placement possibilities
-

FUNCTIONALITY

- The **MX7800i** provides for the delivery of an unparalleled range of transactions when deployed in conjunction with Nautilus Hyosung's innovate integrated software approaches, and powerful video assistance solutions
- The hardware is enabled for supporting a wide range of transactions typically delivered in the drive-thru

UPTIME

- Legendary Hyosung reliability and quality support services

System Control

- Microsoft® Windows 7® Platform
- Intel processor

Customer Interface

- 21.5" Landscape Display
- Web camera – includes video camera and microphone
- ID Scanner

Communication

- TCP/IP

Cash Dispensing

- Up to five 3,000 note cassettes
- Coin Dispenser (optional)

Card Reader / Input Type

- EMV Level 1; dip or motorized
- PCI – 3.0 Keyboard

Depository

- Cash and check accept
- Supports mixed media single insertion bunch deposit

Printers

- 3.1" graphic thermal receipt printer

Power Supply

- AC 110-240 V, 50-60 Hz
- Backup battery (Reserving last transaction and safe shutdown)

Operating Environment

- Temperature: 35°C~ 50°C (31°F – 122°F)

Security

- UL291 Level-1 Safe
- KABA Mas Cencon lock
- Security camera – hand and face

Dimensions *

- Height: 56.7" (1,439mm)
- Width: 41.3" (1,048mm)
- Depth: 36" (914.4mm)
- Weight: 2,182lbs. (990kg)

**Preliminary specifications, subject to change*
